Southern Sydney Freight Line

**IMPORTANT COMMUNITY INFORMATION
BUS STOP RELOCATION – SEFTON STATION**

Australian Rail Track Corporation (ARTC) has commenced work on the Easy Access upgrade at Sefton Station. Sefton Station is to undergo an upgrade to make train travel from this station more accessible for customers.

Due to these works the bus stop will be relocated on Monday 11th May 2009 from Wellington Road to Helen Street, there will be signage to notify of this relocation and we apologise for any inconvenience that this may cause. This relocation will be for the duration of the works.

These works form part of the construction of the Southern Sydney Freight Line (SSFL), an initiative by ARTC to improve the efficiency and competitiveness of rail freight services. This will increase the use of rail for freight and is better for the environment as rail services have less impact than trucks. The SSFL is a 36 kilometre dedicated freight line between Macarthur and Sefton and the new track is within the existing rail corridor. The SSFL will allow passenger and freight services to operate independently, freeing up passenger lines for improved services.

We appreciate everyone's patience and understanding while we build this important project.
