

AUSTRALIAN RAIL TRACK CORPORATION LTD
Southern Sydney Freight Line

Woods Road Partial Closure

Australian Rail Track Corporation (ARTC) will be undertaking construction works at Woods Road on the 14th September 2009.

Through out the closure traffic will be reduced to one lane, traffic will only be allowed southbound with the eastern lane will remaining open.

Northbound traffic will be detoured and signs will be in place to advise of detours.

Pedestrian access at this location will be maintained at all times through out this closure, this will be managed by traffic controllers at all times throughout the closure.

This closure will be in place for two weeks (until 25th September 2009) whilst this works takes place and following this another closure will commence and notifications will be delivered with further details.

These works form part of the construction of the Southern Sydney Freight Line (SSFL). The SSFL is a 36 kilometre dedicated freight line between Macarthur and Sefton and the new track is within the existing rail corridor. The SSFL will allow passenger and freight services to operate independently, freeing up passenger lines for improved services and providing more capacity for freight trains on the dedicated lines.

We appreciate everyone's patience while we build this important project.
