## Southern Sydney Freight Line

### IMPORTANT COMMUNITY INFORMATION

#### Cabramatta Station Works – Update

Australian Rail Track Corporation (ARTC) has begun works at Cabramatta Station. This work is required as part of the Cabramatta Station upgrade works and will involve construction of a new bus stop, lift shaft and concourse.

The works at Cabramatta Station have begun, following the opening of the new carparking on Broomfield St North. The bus stop has been relocated to its final position, and the disable carparking has been relocated from North of the Station to a new location South of the Station.

- A safety fence has been erected around the construction site to provide protection to the workers and safety for the general public.
- Final surveying and services searches are complete
- Construction of bored piles are complete.
- Excavation and construction of pile caps and other general site works has begun.
- Formwork, Reinforcement and Concrete to Pile Cap will shortly begin.

Fencing has been erected around the location of the new perpendicular parking to be constructed on Railway Parade south of the overpass. Clearing and levelling has begun in preparation for the construction of a retaining wall and thence construction of the parking and new footpath.

We appreciate everyone's patience while we build this important project.
