

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line

IMPORTANT COMMUNITY INFORMATION

Bridge Street – Gas Protection Works

Australian Rail Track Corporation (ARTC) will begin works on a concrete slab protection at Bridge Street, Cabramatta. This work will begin on the 11th March 2010 and will take approximately 3 weeks to complete. The area will be fenced off to create a work site and 12 car parking spaces will be utilised whilst the works are being carried out. The equipment on site will be a 5t excavator, 2t tipper, concrete delivery trucks and generator.

There will be traffic control in place to manage the traffic and the pedestrian movements around the worksite. There will be no road closure, but stop/slow traffic managed in both directions.

This gas protection work is required as part of the enabling works to facilitate the construction of the Southern Sydney Freight Line.

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
