

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Miller Road – Construction Works

Australian Rail Track Corporation (ARTC) will be recommencing works at Miller Road Bridge. These works form part of the construction of the Southern Sydney Freight Line. The equipment on site will include an elevated work platform, work vehicles and traffic control. The remaining Miller Overbridge road works requires closing the south bound lane for a three month period with portable traffic light control to enable bi-directional movements. Within the three month partial closure, two full road closures will be necessary to conduct critical activities; these closures will take place over a weekend to ensure minimal disruption to the community. Prior to the full road closures community notifications will be issued. Closure of the south bound lane will take place on the 28th June 2010. A compound will be set up on the 7th June 2010.

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
