

AUSTRALIAN RAIL TRACK CORPORATION LTD
Southern Sydney Freight Line

**IMPORTANT COMMUNITY INFORMATION
WORK COMMENCES ON WARWICK FARM STATION UPGRADE**

Australian Rail Track Corporation (ARTC) will be recommencing work on the Easy Access upgrade at Warwick Farm Station shortly. Warwick Farm Station is to undergo an upgrade to make train travel from this station more accessible for customers.

Features of the upgrade include:

- New covered footbridge
- Three new lifts and stairs
- New family accessible toilet
- Upgraded CCTV and signage
- Reconfigured car park.

Please be aware that there will be a presence of construction workers and building equipment at Warwick Farm Station. We apologise for any inconvenience caused during the execution of this work. Completion of this work will increase the safety, comfort and accessibility at the station. This upgrade will greatly benefit the local community and make it easier for families and seniors to use public transport.

These works form part of the construction of the Southern Sydney Freight Line (SSFL), an initiative by ARTC to improve the efficiency and competitiveness of rail freight services. This will increase the use of rail for freight and is better for the environment as rail services have less impact than trucks. The SSFL is a 36 kilometre dedicated freight line between Macarthur and Sefton and the new track is within the existing rail corridor. The SSFL will allow passenger and freight services to operate independently, freeing up passenger lines for improved services.

We appreciate everyone's patience and understanding while we build this important project.
