

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line

IMPORTANT COMMUNITY INFORMATION

Sydney Water Main installation at Leumeah Station

Australian Rail Track Corporation (ARTC) will be installing a new Sydney Water (SWC) water main from Plough Inn Rd to O'Sullivan Rd underneath the railway line at Leumeah Station. The works includes local excavation and trenching to connect to the existing water main, and replacement of the existing water main that is in the way of the new Southern Sydney Freight Line. The works will be undertaken between 7am to 6pm from the 12th November 2010 for approximately 8 weeks. The equipment that will be used includes an excavator, welder, jack hammer, concrete mixer, work vehicles and hand tools. There will be traffic controls in place to manage traffic and pedestrian movements around the worksite.

This connection work is required as part of the enabling works to facilitate the construction of the Southern Sydney Freight Line. We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
