

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line

IMPORTANT COMMUNITY INFORMATION

Signal Installation works at Sefton

Australian Rail Track Corporation (ARTC) will be undertaking signal installation works in the rail corridor between Joseph and Hope Streets, Sefton, to facilitate the construction of the Southern Sydney Freight Line. The works will take place from 7am to 6pm on both Saturday 20 and Sunday 21 November 2010. Due to the proximity of the tracks, the signal base installation, track installation and under line crossing works can only be carried out during the weekend possession. The equipment required for these works will include a tipper truck, vacuum truck, manitou crane, excavator, site vehicles and hand tools.

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
