

AUSTRALIAN RAIL TRACK CORPORATION LTD

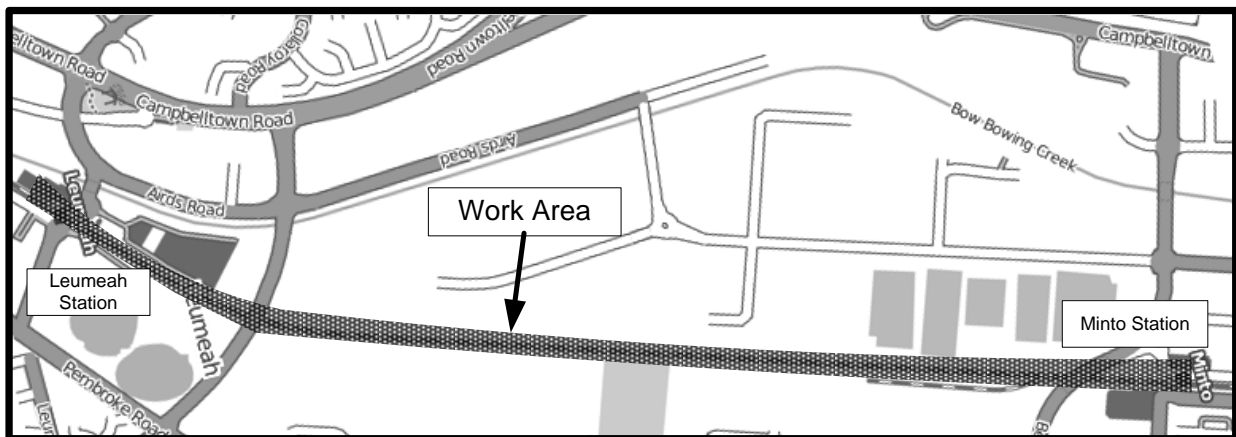

## Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

### Minto to Leumeah – Weekend Works

Australian Rail Track Corporation (ARTC) will be undertaking construction work in your area. These works must be undertaken outside normal construction hours because of the safety risks involved with working in close proximity to overhead power and rail track.

#### Minto Station to Leumeah Station

These works will take place from 7am to 6pm on Saturday 22 and from 8am to 6pm on Sunday 23 January 2011, with a contingency period from 6pm to 10pm both days. These works will include installing, changing over and commissioning of signalling and communications cables (Combined Services Route Zone 3). The equipment required for these works include site vehicles, power winches, generators and non-powered hand tools.

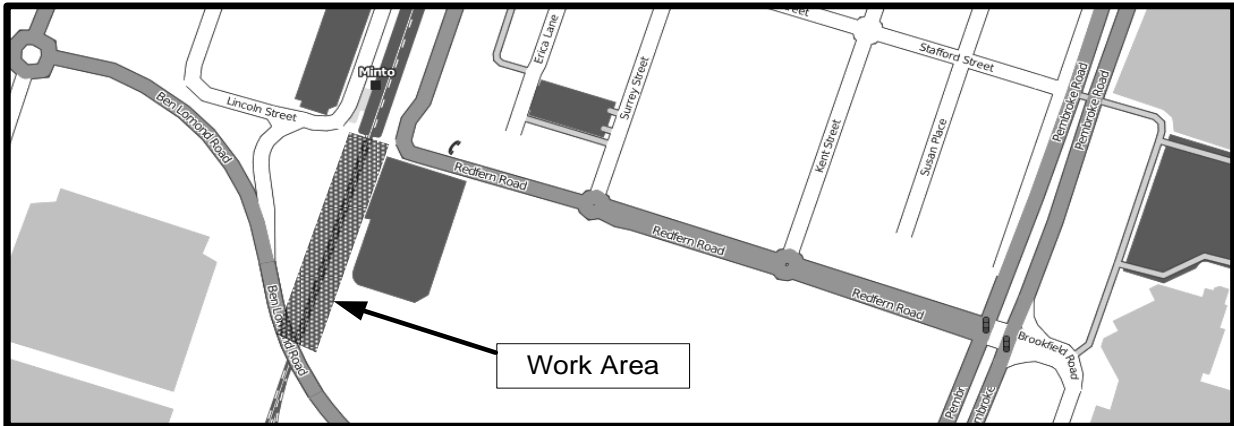

#### Minto Station

These works will take place from 7am to 6pm on Saturday 22 and from 8am to 6pm on Sunday 23 January 2011, with a contingency period from 6pm to 10pm both days. The works will include upgrading the power, cladding and glazing lift shafts, fitting porch frames and handrails to the footbridge, erecting scaffolding, and demolishing access ramps. The equipment required for these works include a delivery truck, oxy sets, generator, 100t crane, 20t Franna, scissor lifts, knuckle boom, scaffolding, day maker lights, powered and non-powered hand tools.

### Redfern Road to Ben Lomond Road, Minto

These works will take place from 7am to 6pm on Saturday 22 and from 8am to 6pm on Sunday 23 January 2011, with a contingency period from 6pm to 10pm Saturday 22, and 6pm to 10pm both days. The works will include relocating optical fibre at Minto. The equipment required will include site vehicles, winches, and non-powered hand tools.

### Leumeah Station

These works will take place from 7am to 6pm on Saturday 22 and from 8am to 6pm on Sunday 23 January 2011, with a contingency period from 6pm to 10pm on both days. These works will include extending the footbridge, erecting and positioning bridge planks, installing the precast lift shaft, and integrating the platform to the lift shaft entry. The equipment required will include a delivery truck, oxy sets, generator, 20t Franna, 10t crane, knuckle boom, concrete truck, concrete pump, day maker lights, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney, NSW and the nation.
