

AUSTRALIAN RAIL TRACK CORPORATION LTD

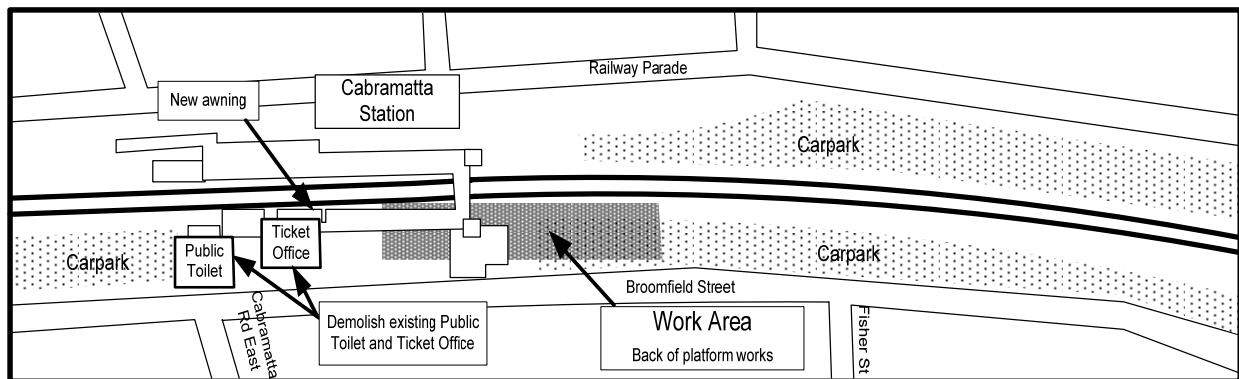

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Construction Work at Cabramatta Station

Australian Rail Track Corporation (ARTC) will be undertaking construction work at Cabramatta Station. The work will focus on the back of platform and includes widening the platform, installation of a new awning, demolition of the existing ticket area and toilet block, and electrical modifications. This work must be undertaken outside normal construction because there are safety risks involved with working in close proximity to the overhead wires and tracks.

Construction will be undertaken from 7am to 6pm on Saturday 9 April and from 8am to 6pm on Sunday 10 April 2011. If the works are not completed in these times, there is an approved contingency period from 6pm to 10pm on both days; however activities such as rock breaking and jack hammering will only be undertaken up until 6pm.

The equipment used will include a delivery truck, oxy sets, a 60t crane, a 20t franna, scaffolding, an elevated work platform, a 12t rock breaker, a 12t excavator, dump trucks, a compressor, jack hammers and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney, NSW and the nation.
