

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

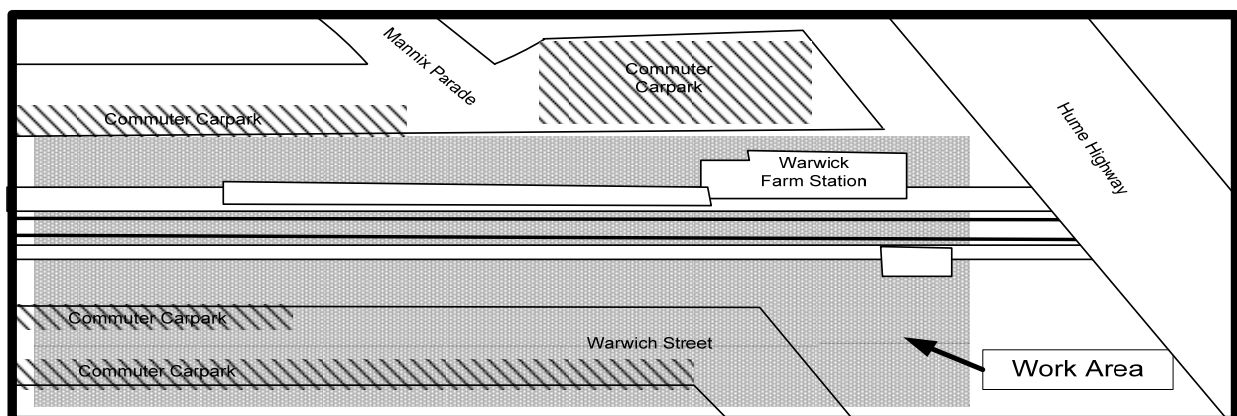

Construction Work at Warwick Farm Station

Australian Rail Track Corporation (ARTC) will be undertaking construction work at Warwick Farm Station. The work will include the installation of a lift shaft, extension of the platform, placement of concrete transition slabs, upgrading the power, and glazing and cladding the lift shafts. This work must be undertaken outside normal construction because there are safety risks involved with working in close proximity to the overhead wires and tracks.

The work will take place from 7am Saturday 9 April to 8pm on Sunday 10 April 2011. If the works are not completed in these times, there is an approved contingency period from 8pm to 10pm on Sunday 10 April 2011.

The equipment used will include delivery trucks, hand tools, oxy sets, a 250t crane, a 20t Franna, scaffolding, an elevated work platform, concrete delivery vehicles, a concrete boom pump, a power saw, a piling rig, a drop saw and powered and non-powered hand tools.

Traffic controls will be in place to manage vehicle and pedestrian movements during construction.

We appreciate your patience while we build this important project for Sydney, NSW and the nation.
