

AUSTRALIAN RAIL TRACK CORPORATION LTD

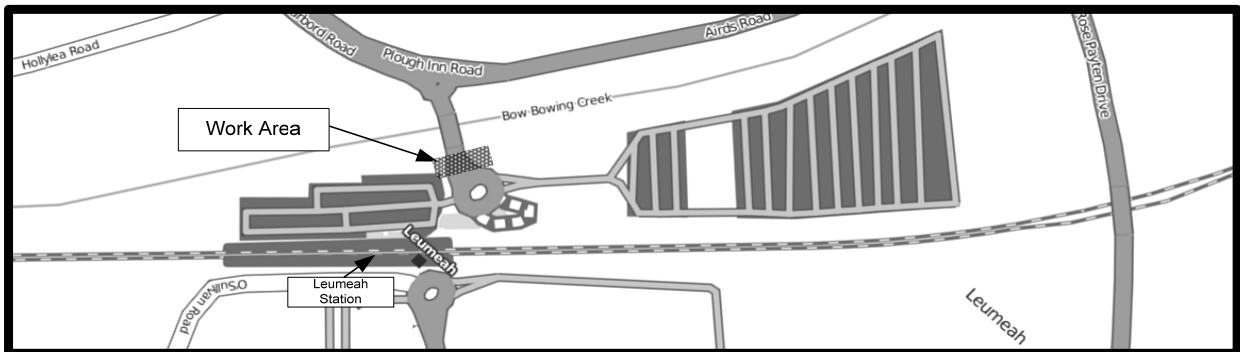

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Construction work at Leumeah Station

Australian Rail Track Corporation (ARTC) is currently undertaking construction at Leumeah Station for the Southern Sydney Freight Line as follows.

Underbore at Old Plough Inn Road

An underbore is being constructed at Old Plough Inn Road, on the western side of Leumeah Station, to bring power to the station carpark. The work commenced on 20 June and will be completed by Friday 1 July 2011. The hours of work are 7am to 6pm Monday to Friday, and 8am to 1pm Saturday. Due to latent ground conditions an open cut trench is now required to undertake the works. The equipment to be used will include an excavator, cable truck, jack hammer, concrete mixer, work vehicles and hand tools. A partial road closure will be implemented with traffic controls in place to manage vehicular and pedestrian movements during construction.

Rectification of light poles

Light poles will be reinstalled at the Southern carpark off Old Plough Inn Road from 7am to 6pm Monday to Friday, and 8am to 1pm Saturday, commencing Monday 11 July until Saturday 16 July 2011. Four parking bays will be closed for the duration of the works. The equipment that will be used includes a Hiab truck, site vehicles, powered and non-powered hand tools. Traffic controls will be in place to manage vehicular and pedestrian movements during construction.

We appreciate your patience while we build this important project for Sydney and NSW.
