

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

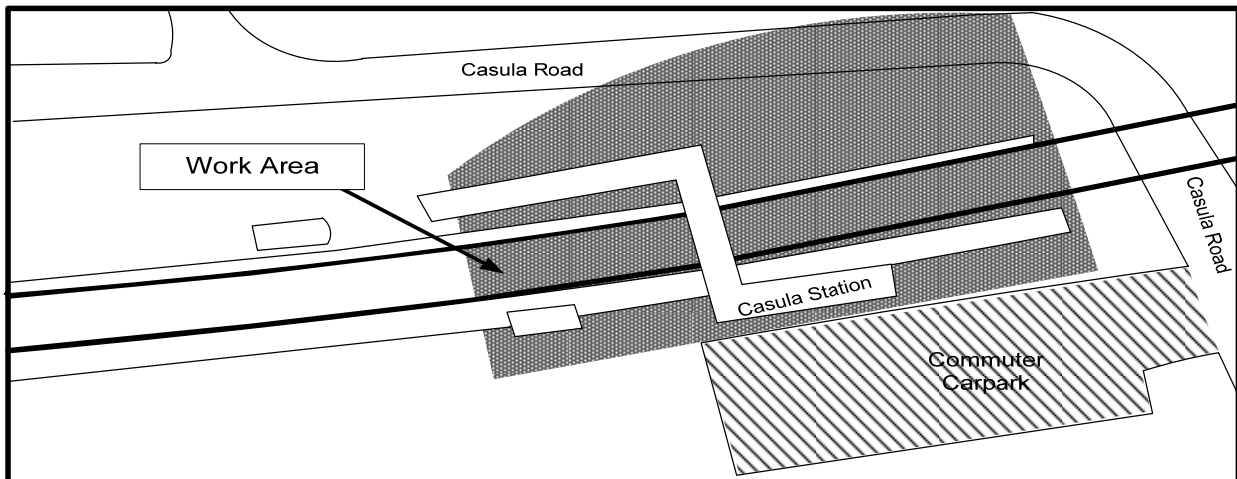

Construction Work at Casula Station

Australian Rail Track Corporation (ARTC) will be undertaking construction work at Casula Station. This work must be undertaken outside normal construction hours because there are safety risks involved with working in close proximity to the overhead wires and tracks.

The work will consist of installation of a lift shaft, piling, extension of the deflection wall, platform works, installation of footbridge components, and power upgrade works.

The work will be undertaken on Saturday 23 July, from 7am to 6pm, and on Sunday 24 July 2011, from 8am to 6pm. A contingency is in place for 6pm to 10pm on both days.

The equipment used will include delivery trucks, oxy sets, a 100t crane, 20t franna, scaffolding, elevated work platform, piling rig, generator, knuckle boom, angle grinder, concrete pump, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
