

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Construction Work at Leumeah Station

Australian Rail Track Corporation (ARTC) will be undertaking construction work at Leumeah Station. This work must be undertaken outside normal construction hours because there are safety risks involved with working in close proximity to the overhead wires and tracks.

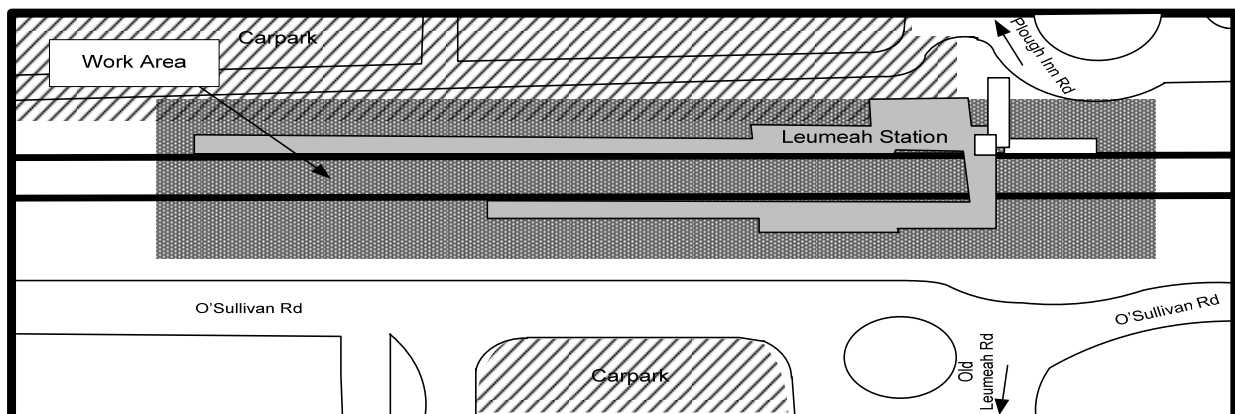

The work will consist of back of platform works, and works to the footbridge, existing lift shaft and platform and to the new precast lift shaft. A Telstra service lead will also be relocated in troughing along the station platform to the station building.

Prior to the installation of the new lift shafts temporary concrete barriers will need to be erected in the carpark and a temporary ramp will need to be installed. One disabled parking bay adjacent to the station will be temporarily moved to the next available space. Pedestrian access to the station via the carpark will be maintained throughout construction.

The work will be undertaken on Saturday 23 July, from 7am to 6pm, and on Sunday 24 July 2011, from 8am to 6pm, with an approved contingency between 6pm to 10pm on both days. The Telstra lead works will be undertaken on Saturday 23 July, from 7am to 6pm, with a contingency between 8am to 6pm on Sunday 24 July 2011.

The equipment used will include delivery trucks, a 100t crane, 20t franna, scaffolding, elevated work platform, generator, oxy sets, concrete pump, saw cutter and powered and non-powered hand tools.

Traffic controls will be in place during this time to manage vehicular and pedestrian movements.

We appreciate your patience while we build this important project for Sydney and NSW.
