Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

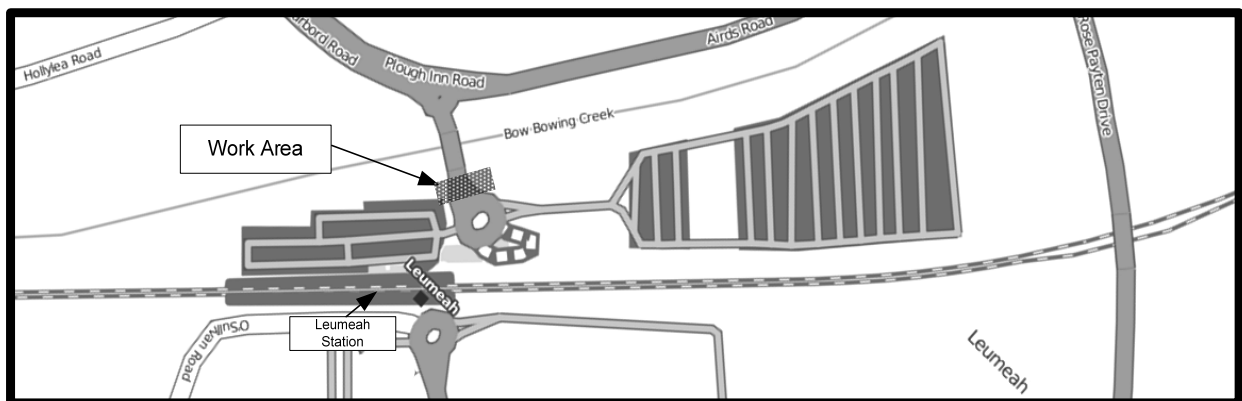

Underbore construction at Old Plough Inn Road, Leumeah

Australian Rail Track Corporation (ARTC) is currently constructing an underbore at Old Plough Inn Road, on the western side of Leumeah Station, to bring power to the station carpark.

The work initially commenced on 20 June and was expected to be completed by 1 July 2011. We are now continuing this work from 8 August and expect the works to be completed by 31 August 2011. The hours of work are 7am to 6pm Monday to Friday, and 8am to 1pm Saturday.

Due to latent ground conditions an open cut trench is required to undertake the works. A partial road closure will be implemented with traffic controls in place to manage vehicular and pedestrian movements during construction.

The equipment to be used will include an excavator, cable truck, jack hammer, concrete mixer, work vehicles and hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
