

AUSTRALIAN RAIL TRACK CORPORATION LTD

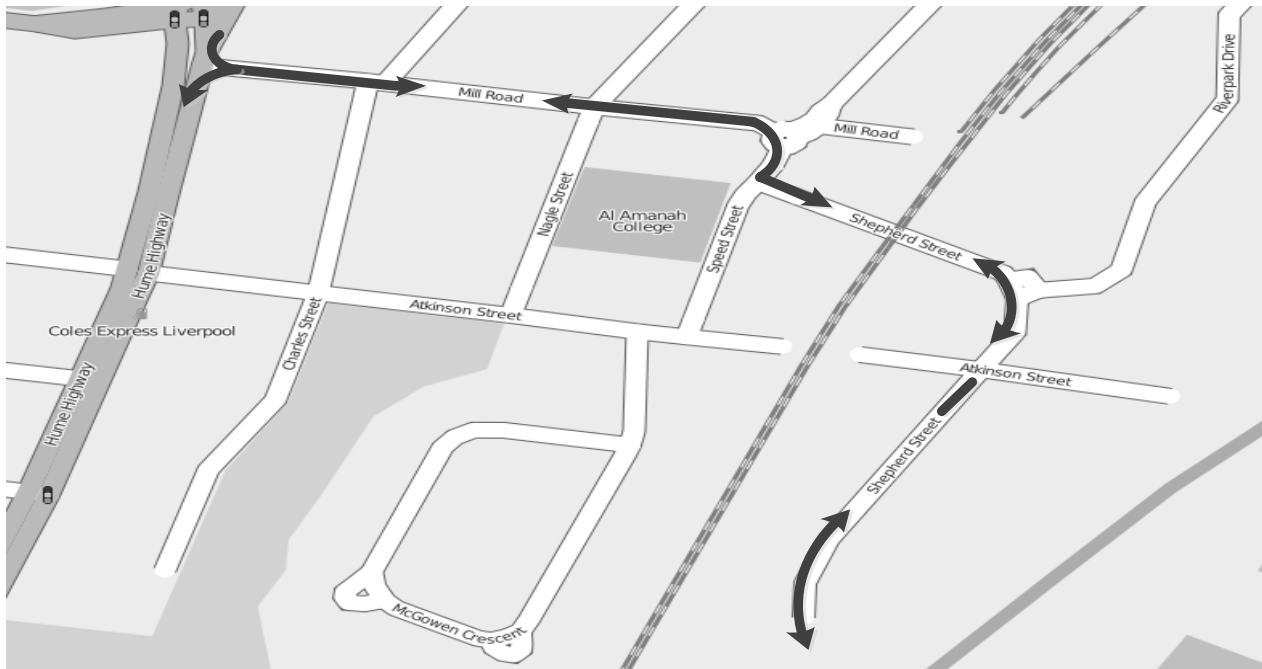

## Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

### Increase in truck movements along Shepherd Street

Australian Rail Track Corporation (ARTC) is constructing a new Casula access road, as part of the Southern Sydney Freight Line project, stretching around 2km from Shepherd Street, Liverpool down to the Casula Powerhouse Regional Arts Centre (linking with Woodbrook Road, Casula).

The Casula access road will provide a gated access to the Powerhouse in combination with a shared pathway for cyclists and pedestrians that is being constructed as part of the overall Georges River Corridor Shared Pathway. The road and pathway will service the planned parkland upgrade to the former Casula Golf Course site.

Currently construction traffic uses the Mill Road/ Hume Highway intersection to travel down Mill Road onto Shepherd Street and into the rail corridor and back. Due to the required removal of spoil coming from the rail corridor, there will be an increase in truck movements for two weeks from Monday 26 September to Friday 7 October 2011. Truck movements will then reduce and return to normal activities.
