
Southern Freight Link

Community Notification – Construction work, Cabramatta

The Southern Sydney Freight Line Project (SSFL) will be undertaking construction work in your area. These works must be undertaken outside normal construction because there are safety risks involved with working in close proximity to the overhead wires and tracks. RailCorp has a track possession scheduled from **18 to 19 February 2012**, which means passenger trains won't be running on this weekend to allow construction work on the train lines. The Southern Sydney Freight Line will utilise this track possession to undertake work safely.

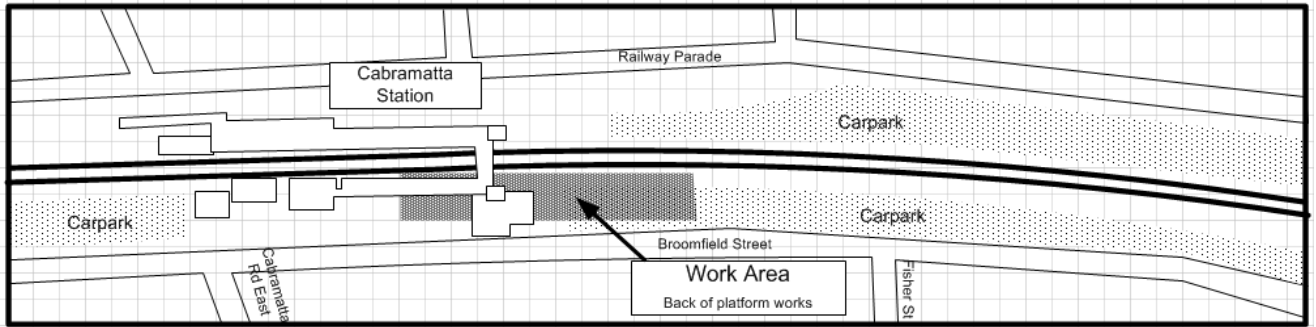

Fisher Street, Cabramatta

The removal of a redundant sewer vent will be undertaken at Fisher Street, Cabramatta, from **7am to 6pm Saturday 18, and from 8am to 6pm Sunday 19 February 2012**. An approved contingency is in place from **7am to 6pm Saturday and from 8am to 6pm on one weekend in February and March 2012**, you will be notified again for these works closer to the time. The equipment to be used will be a 25t Franna crane, elevated work platform, and powered and non-powered hand tools.

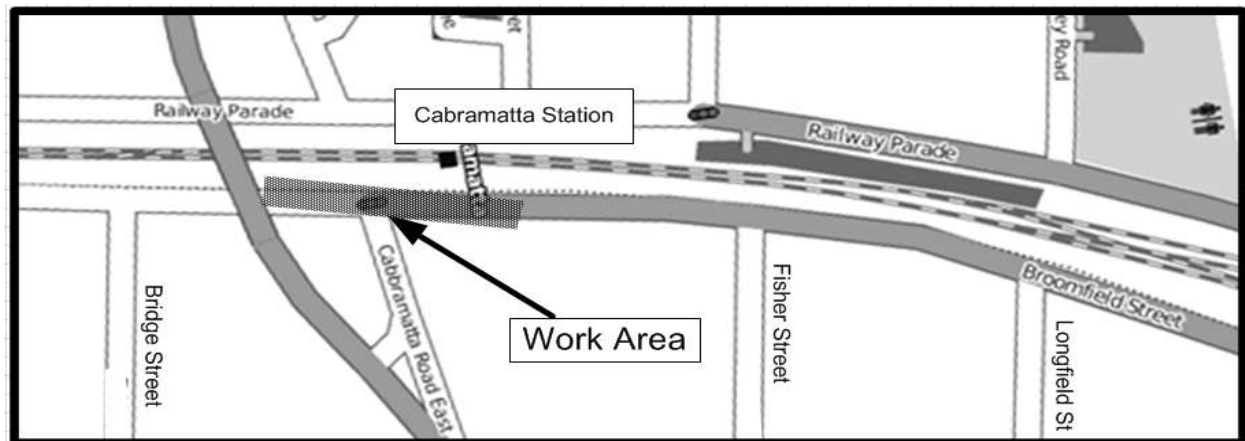

Cabramatta Station

Back of platform and electrical modification works will be undertaken from **7am to 6pm Saturday 18, and from 7am to 6pm Sunday 19 February 2012**. A contingency is in place from **6pm to 10pm on Saturday 18 and Sunday 19 February 2012**. The equipment to be used for these works will include a 25t Franna crane, scissor lift, oxy cutting equipment, generator, delivery vehicles, grinder, drill, power saw, and powered and non-powered hand tools.

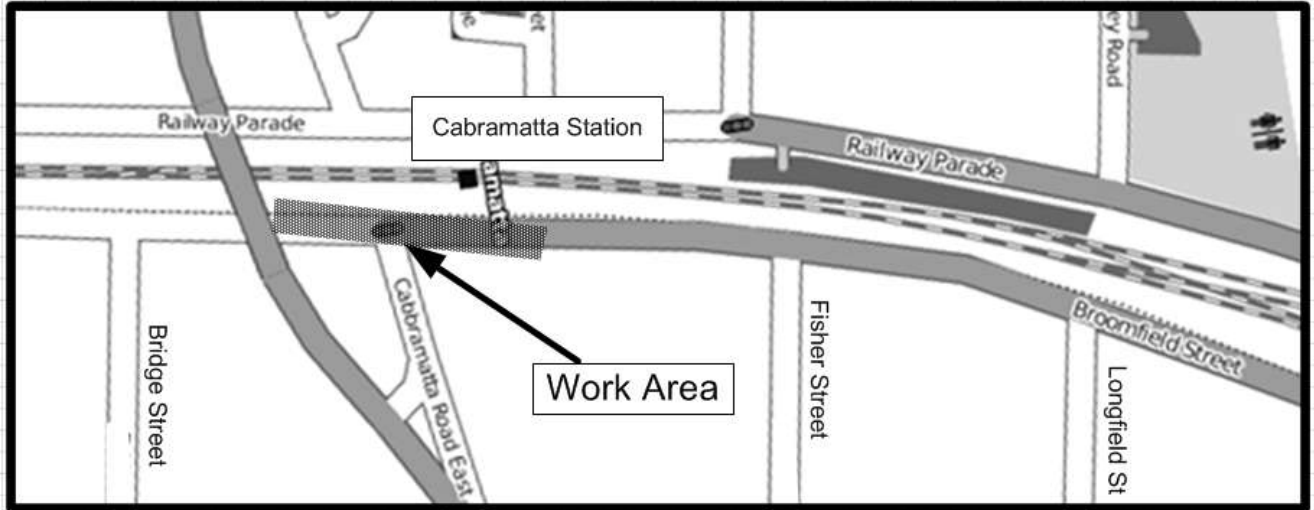

Cabramatta Road East, Cabramatta

Excavating, installing piles and formwork, reinforcing and concreting for capping beam, and installing a bus shelter and station fencing will be undertaken from **7am to 10pm Saturday 18, and from 8am to 10pm Sunday 19 February 2012**. The equipment to be used for these works will include a small excavator, bobcat, piling rig, two concrete agitator trucks, two concrete pumping trucks, two 20t Franna cranes, two sucker trucks, four generators, angle grinder, compressor, two jackhammers, demolition saw, four lighting towers, and powered and non-powered hand tools.

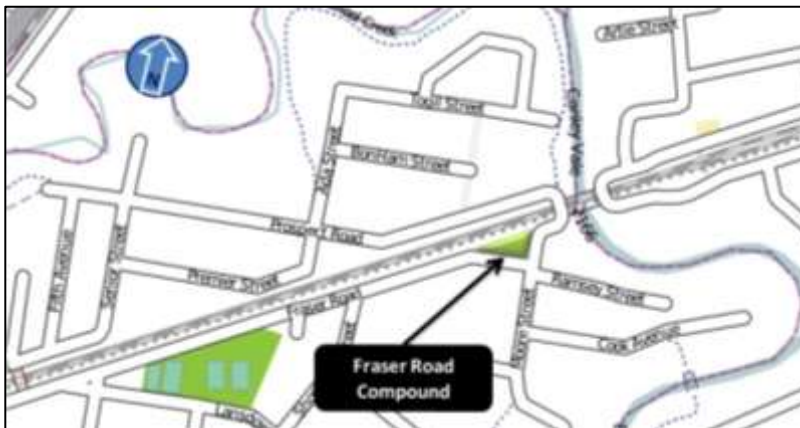

Cabramatta

Excavating, installing piles and formwork, reinforcing and concreting for a retaining wall will be undertaken from **7am Saturday 18 to 10pm Sunday 19 February 2012**. The equipment to be used for these works will include a small excavator, bobcat, piling rig, two concrete agitator trucks, two concrete pumping trucks, two 20t Franna crane, two sucker trucks, four generators, angle grinder, compressor, two jackhammers, demolition saw, four lighting towers, and powered and non-powered hand tools.

Site Compound located at Fraser Road Canley Vale

The compound located at Fraser Road, Canley Vale, will be used between **7am Saturday 18 February to 10pm Sunday 19 February 2012**. The compounds will be in use to facilitate the works for deliveries, staff amenities, and deliveries of supplies.

We appreciate your patience while we build this important project for Sydney and NSW.
